

# COMPLETED TASKS REPORT

## Sports Club Management System

### Database Schema Integration

Successfully aligned system with existing SQL schema (Athletes, Clubs, Competitions, Documents).

### Admin Dashboard & UI Base

Established responsive sidebar, top navbar, and statistics cards for the admin area.

### Athlete Management Module

List, view, and manage athlete profiles. Automated PDF ID Card and QR code generation.

### Document Verification Module

Dedicated UI to review uploaded certificates and Aadhaar cards, with Approve/Reject workflows.

### Payments & Invoices Module

Manual invoice generation, payment status tracking, and downloadable PDF receipts.

### Tournaments & Competitions Module

Register athletes for specific events, specifying age group, weight category, and level.

### Clubs & Coaches Module

Register affiliated clubs, assign athletes, and auto-generate a centralized Coaches Directory.

### Athlete Frontend Registration Flow

Complete 6-step multi-page application form with document uploads.

### Athlete Portal Dashboard

Secure portal for athletes to track pending invoices, verification status, and registered tournaments.
